

BEARNES : READING DURING SCHOOL CLOSURES

As we all know, reading is like anything – we get better with practice! Everyone at Bearness really hopes that you are getting your daily practice and continuing with your reading at home. Now, thanks to our partners at Renaissance Learning, we can give you access not only to our Accelerated Reader™ programme but also to an online library of fantastic digital books from MyOn.

Accelerated Reader

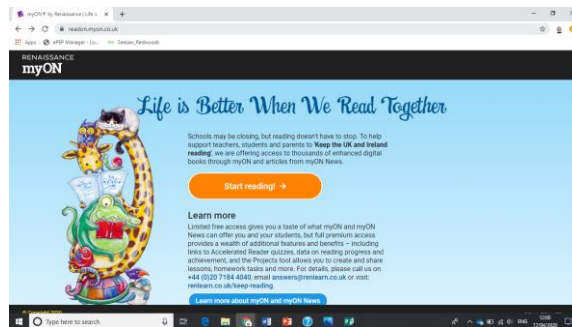

If you are in Years 2 – 6 and have AR books at home that you have finished reading, then you probably want to take the quiz. Go to <https://ukhosted82.renlearn.co.uk/2236649> where you can log on in the usual way as a student. If you have forgotten your user name and/or password, please contact Ms Clarke at tracy.clarke@thelink.academy or message us via our Facebook page.

If you have been reading books from home, there might be a quiz on AR. You can check this either by entering the title under ‘Find a Book’ on the first screen or by using www.arbookfinder.co.uk. Get quizzing! And don’t worry if it’s not at your current book level (ZPD) – just have fun quizzing!

** Please do not use the Star Reader function during school closures. **

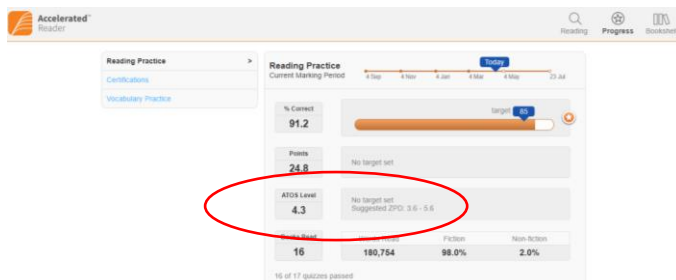

MyOn

MyOn, also part of Renaissance Learning, have made their digital library available to you. You can access the books at <https://readon.myon.co.uk/> where you will see this:

You can click on the orange “Start reading” button to reach the library where you can **browse** the books by category. Use the **filter** button  (on the left hand side of the screen) to refine your search to fiction, non-fiction or graphic novels.

You can also find books using the **search** function. Here again, by using the filter button , you can search for something specific, to choose books at your year level or the ATOS (which is like your ZPD score that tells you the book level you are on in AR). If you are unsure of your ZPD you can either find it yourself by logging into AR and clicking on the progress button; you will get a screen that looks like this:

Again, any problems or queries just contact Ms Clarke at tracy.clarke@thelink.academy or message us via our Facebook page.

We are sure you will love the range of books available on MyOn. Happy reading!
