

# Bearnes Primary School

## Summer Term Home Learning Planner

We have designed a range of activities that are suitable for all abilities and ages. Please do not feel pressured to do all of them each week. It would be great if you wanted to design your own activities around the theme too! We would love to see what you have achieved so please continue to share this with us on SeeSaw, Tapestry or the school Facebook page.

Have fun!

### Week 2

#### My Community

##### Art/DT

##### Create a community workers and helpers art board

Have a think about all the different people that make up our community. There are a few suggestions below to get you started. Can you think of some more? Using a large piece of paper create a board that displays these roles. You could draw or use coloured paper to make the people.

##### Make your own cardboard town

There are many wonderful buildings, businesses and landmarks that form part of our community. Our town comprises of churches, a clock tower, schools, shops, a leisure centre, market and much, much more. Explore all the different buildings and businesses in Newton Abbot and use empty cereal packets and other packaging to make your own model of our town.

What do you call a shop that sells flowers?

What do you call a shop that sells meat?

Perhaps you could add these businesses to your model as well as your own establishments.

Happy building!

## Bearness Primary School Summer Term Home Learning Planner

	 <p>After you have finished, stick your work on the wall and be proud that you are part of such a special community.</p>	
<p><b>Science</b></p>	<p><b><u>How do viruses react to soap?</u></b></p> <p>We have all heard on the news about why washing our hands kills Covid-19, but why is this?</p> <p>Complete this science experiment and it should explain why. Hopefully you will feel reassured that coronavirus can be killed if we are careful — by washing ourselves, our clothes, etc.</p> <p><a href="https://www.sciencebuddies.org/blog/doing-fun-science-at-home-activity12-kids-coronavirus-questions-answered">https://www.sciencebuddies.org/blog/doing-fun-science-at-home-activity12-kids-coronavirus-questions-answered</a></p> <p>NB: If you haven't got any double-sided sticky tape, use single sided tape and double it over.</p>	<p><b><u>Give nature a home in your garden?</u></b></p> <p>Who has noticed more wildlife in their garden, or heard the birds singing more since lockdown? Now more than ever, we can protect our wildlife and keep them safe.</p> <p>Have a go at creating a home in your garden. There are lots of different ideas to choose from here:</p> <p><a href="https://www.rspb.org.uk/get-involved/activities/give-nature-a-home-in-your-garden/garden-activities/">https://www.rspb.org.uk/get-involved/activities/give-nature-a-home-in-your-garden/garden-activities/</a></p>
<p><b>Music</b></p>	<p>Many of you may well be taking part in the 'clap for carers' every Thursday evening (if you're not already in bed). Can you make a shaker or other musical instrument to play? Can you create an interesting rhythm to bang on your saucepan lids, like a mini samba band? (I've seen videos of whole families performing songs, playing instruments and really going to town if you're up for that.)</p>	<p>Raise your voice together:</p> <p>Sing some of your favourite songs to entertain your neighbours from your window or garden – maybe you can get others to join in too? Or phone a relative or friend to sing to them. For example, 'Lean on me' by Bill Withers is a great song with a theme of supporting each other. The lyrics are below.</p> <p><a href="https://totalvoice.co.uk/wp-content/uploads/2018/01/Lean-On-Me-lyrics.pdf">https://totalvoice.co.uk/wp-content/uploads/2018/01/Lean-On-Me-lyrics.pdf</a></p>

### Summer Term Home Learning Planner

<p><b>PSE/RE</b></p>	<p><b><i>What makes a good community?</i></b>          Can you talk to people in your family and discuss this question? You might want to think about these questions:</p> <ul style="list-style-type: none"> <li>• What is a community?</li> <li>• What makes my community special?</li> <li>• What do we like about our community?</li> <li>• What would I like to improve in my community?</li> </ul> <p>You could present your findings as a colourful mindmap, written notes or a presentation (perhaps on powerpoint or google slides).          There are lots of videos on YouTube about community (eg, <a href="https://www.youtube.com/watch_popup?v=EYf4lFaW3ms">https://www.youtube.com/watch_popup?v=EYf4lFaW3ms</a>) but they are all American – perhaps you could make a video of yourself and your family explaining what makes a good community.</p>	<p><b><i>Our school family is a community.</i></b>          Who makes up our school community? Think of all the different things that we do as students, families, staff and friends that helps make our school a good community.          Design some ‘Community Awards’ for our school. Think of roles and jobs within our school community that deserve a big thank you! Here are some ideas to get you started...</p> <ul style="list-style-type: none"> <li>• Most enthusiastic play leader</li> <li>• Healthiest Lunchbox</li> <li>• Best at tying shoe-laces</li> <li>• Best pencil sharpener in class</li> </ul> <p>You can make them as funny or as serious as you want.          Come up with at least two or three and then design the award itself – will you go for a special cup, a medal or a certificate?  <i>PS: We don’t want to give them out yet so don’t design them with any special people in mind – we may ask for nominations later!</i></p>
<p><b>Geography/History</b></p>	<p>Geography          Design a map of your local area including local services such as hospitals, shops and library. Be creative in designing your map.</p>	<p>History          Find out interesting facts about the history of Newton Abbot. Design a timeline to show the interesting facts as they happened.</p>
<p><b>EYFS challenges on Tapestry</b></p>	<div style="display: flex; align-items: flex-start;">  <div style="flex-grow: 1;"> <p>Challenge 1: Everyone loves to peek out of the window and watch the world go by. This is the perfect way to talk about directions, where you live, similarities and differences. Can you learn your own address at the same time?</p>  <p>Challenge 2: Can you create cards for the local key workers/ care homes in your local area?</p> </div> </div>
